## Dr Dinning

### **Coumadin/Warfarin Preparation**

Stop Coumadin/Warfarin 5 days prior to procedure.

-Patient to use Lovenox only if instructed by Dr Dinning

Begin Lovenox as directed twice per day 3 days prior to the procedure. Hold Lovenox morning of the procedure. Patient will be instructed when to restart Lovenox and Coumadin after the procedure.

(\*Check PT-PTT the day prior to procedure; No sooner, no later. Patient will be advised if your physician requires labs to be completed prior to procedure)

### **Pradaxa/Xarelto/Brilinta/Savausa:**

Stop 3 days prior to procedure
